

# Cold Relief

---

Massachusetts Department  
of Housing & Community Development  
One Congress Street, Boston, MA 02114

Division of Neighborhood Services

Argeo Paul Cellucci, Governor  
Jane Swift, Lieutenant Governor

## From the Director

November, 2000

This year marks the twenty-second anniversary of the Low-Income HOME Energy Assistance Program (LIHEAP). On average, LIHEAP funds have helped over 100,000 households annually across the state.

Funded through the U.S. Department of Health and Human Services (DHHS), the LIHEAP Program assists low-income individuals and families with the cost of heating their homes during the winter season. The Program is managed by the Commonwealth's Department of Housing and Community Development (DHCD) in conjunction with 22 regional nonprofit and local government organizations.

This year, the LIHEAP program will provide fuel assistance to low-income people with annual incomes up to 200% of the federal poverty level, or \$34,100 for a family of four. Current benefits vary depending on income levels. Last year, DHCD served over 114,000 Massachusetts households through this program, and expects a minimum of 12,000 more to be served this winter.

The Weatherization Assistance Program, funded by the U.S. Department of Energy (DOE), and the Heating System Repair and Replacement Program (funded through DHHS LIHEAP funds) are other programs designed to assist low-income households in the Commonwealth. These energy conservation programs help stretch available LIHEAP funds.

DHCD also administers the Low-Income Sewer and Water Assistance Program

through the LIHEAP network. This program provides a benefit of up to 25% of a household's combined sewer and water bills.

All of these services are provided through "one-stop applications" at your local energy assistance agency.

This brochure is intended to be a resource for program providers, energy vendors, cities and towns, and current or potential program participants. We hope that you find it an informative tool to access the fuel assistance and energy conservation providers.

Should you have any questions, please do not hesitate to contact DHCD's Bureau of Energy Programs or your local energy assistance agency indexed by community in this brochure.

Jane Wallis Gumble, Director

Department of Housing and Community Development

# Community Listing

To find the local energy assistance agency closest to you, match the number beside the city/town listing to the agency number listed below.

# About our Programs...

The **Low-Income Home Energy Assistance Program (LIHEAP) (Fuel Assistance)** provides eligible households with help in paying winter heating bills. The program pays benefits of fixed amounts based on household income. An additional benefit is available to eligible households having a high energy burden. Local administering agencies determine household eligibility based on annualized income and the number of members in the household. The agency then will make payments towards the heating bills to the primary heat source vendor (oil, propane, wood or coal dealer or gas or electric utility). Special provisions are made for those households whose heat is included in their rent and those living in subsidized housing.

Households with incomes up to 200% of the Federal Poverty level are eligible for the Fuel Assistance Program. Homeowners and renters are both eligible.

The **Weatherization Assistance Program (WAP)** is designed to assist low-income households reduce their heating bills by providing home energy efficiency services. The program is operational year round. After a household is determined eligible, the local agency schedules an energy inspection of the home. A Mass. Weatherization Certified Energy Auditor completes an inspection of the energy and health and safety concerns of the home and completes a Work Order/Job Write-Up. Local licensed and insured weatherization contractors are hired to complete the work at no cost to the occupants. Typical work completed includes air sealing, attic and/or sidewall insulation, weatherstripping, and minor repairs associated with the weatherization work. Heating system work, if needed is typically referred to a separate

program administered by DHCD/BEP. All work receives a thorough Quality Control inspection by the agency's Energy Auditor. To the greatest extent possible, work is coordinated with any utility-funded Demand Side Management (DSM) programs that may be available in the area.

Households with incomes up to 175% of the Federal Poverty level are eligible for the Weatherization Assistance Program. Program eligibility is based on household eligibility for the LIHEAP Program. In addition, those households with a member receiving TAFDC or SSI are categorically eligible. Due to limited funding, priority points are awarded to households with members who are elderly, handicapped, children under 7, or Native Americans. Households with exceptionally high energy bills also may receive priority of service. Tenants (with landlord approval) as well as homeowners are eligible for weatherization.

Weatherization services vary dependent on the specific needs of the home and DOE approved conservation measures. Typical jobs range from \$200 to a maximum of \$3,500 with the average grant approximately \$1,300. No client contribution is required.

The **Heating Emergency Assistance Retrofit Task Weatherization Assistance Program (HEARTWAP)** is designed to provide heating system repair and replacement services to low-income households. The program is operational year round. During the winter months, the program serves primarily as an emergency intervention service to provide assistance to low-income clients having problems with the operation of their primary heating system. Eligible households call the local administering agencies and notify HEARTWAP staff when they are having a problem. Heat-

ing companies, under contract with the local agency, provide services necessary to keep the heating system operating efficiently and safely. Provisions are in place for LIHEAP clients to contact their dealer directly if the emergency occurs during the evening or on weekends.

Households with incomes up to 175% of the Federal Poverty level are eligible for the HEARTWAP. Program eligibility is based on household eligibility for the current year's LIHEAP Program. Tenants are eligible for some services, but are required to first contact their landlord who is legally responsible for the maintenance of the heating system.

HEARTWAP services vary dependent on the specific needs of the home. Emergency repairs average between \$50-\$150. Heating system replacements for unsafe, inoperable, and irreparable systems can be as high as \$2,750.

The **Low Income Sewer and Water Assistance Program (LISAWAP)** provides eligible households that receive both sewer and water bills a benefit of up to 25% of their annual bills, up to a maximum dollar amount. Once qualified by a fuel assistance agency, the household's sewer and water bills are requested and benefit is paid directly to the billing agents. Applicants do not have to accept LIHEAP benefits to qualify for the Sewer and Water Assistance Program. Income eligibility for the program is the same as the LIHEAP guidelines. Please reference the eligibility chart on the back page of this document for the guidelines.

**For further information on any of the above programs, please call the BEP Staff at (617)727-7004 or 1 (800) 632-8175.**

## WINTER ENERGY-SAVING TIPS

- ❄️ Caulk and weatherstrip doors and windows that leak air.
- ❄️ When the fireplace is not in use, keep the flue damper tightly closed.
- ❄️ Set your thermostat as low as is comfortable and consider an automatic setback thermostat to save additional money.
- ❄️ Clean or replace filters on furnaces every other month.
- ❄️ Make sure that warm air registers, baseboard heaters and radiators are not blocked by furniture, carpeting, or drapes.
- ❄️ Close your curtains and shades at night; open them during the day.
- ❄️ Have your oil-fired heating system serviced annually and your gas-fired heating system serviced every three years.
- ❄️ Contact the energy assistance agency in your community to find out about the programs they offer that can keep you warm this winter.

### 2000-2001 FUEL ASSISTANCE INCOME ELIGIBILITY CHART BASED ON GROSS ANNUAL INCOME

Number of Household Members	100% of POVERTY	125% of POVERTY	150% of POVERTY	175% of POVERTY	200% of POVERTY
<b>1</b>	\$8,350	\$10,438	\$12,525	\$14,613	\$16,700
<b>2</b>	\$11,250	\$14,063	\$16,875	\$19,688	\$22,500
